Stillwater carp feeding with gusto but river gets off to a slow start

CHANGEABLE weather or not – fair sized carp have been on the chomp all over MK during the past week!

Willen kept up its recent form as Reece Keane had a 34llb

common and Mike Jackson (both reporting through GoneFishin) five to 21-8 on home-made baits over a spod mix.

Spending a day searching Parc Farm lakes at Linford with good old-fashioned floating crust, Gary Maton had a 29-10 mirror and a 20-9 ghostie – and a lot of fun doing it.

On Furzton Michael L'Honore (reporting through Willards) had a flush of fish including the 19lb, almost leathery, mirror pictured below.

And, also on Furzton, Tackle Hub's Dave Sassoon got a rapid response in Wednesday afternoon's blazing sunshine as he netted an 18lb common within minutes of casting out a 'special' offering.

Talking of flying starts, Hannah Kennedy (pictured above) got off to a good'un when she decided to let boyfriend Luke teach her how to fish on Tear Drops, and bagged this pound perch.

By contrast Monday's river season start – the glorious 16th – was a rather pedestrian affair for many: me included as I managed a 3-6 Whitings chub and an unwanted run-in with a cackle of aggressive middle-aged 'lady' dog walkers who didn't seem to

know that their mutts are supposed to be put on leads when misbehaving. On the brighter side that section is absolutely teeming with small dace.

Sport wasn't much quicker downstream at Olney, though 'Paul' landed a 4-8 chub and Keith Mitchell had four bream for 21lb – heaviest 6-5.

Anyone fishing Lodge on its opening day, and pleased to find they had a nicely trimmed peg, should thank bailiff lan Pledger who, with the co-operation of MK Parks Trust, spent Saturday afternoon opening up 45 pegs. And if you are that grateful, I believe he drinks Magners. Don't all rush at once...
