

The Upper Ouse, its fish and YOU!

**Interested in the
future of the Ouse,
its fish stocks and
especially its
barbel population?**

THEN come and hear the LATEST news and plans from people involved – EA fisheries staff, independent scientists, backed by local clubs – who, for best part of a decade, have been probing ever-deeper into what the river needs to help it regain a thriving barbel population.

● **The evening is set to include:**

- A rare opportunity to hear first-hand from fishery specialist *Tea Basic* (who has been studying Ouse barbel in her PhD research) what she has found out so far.
- Schemes ('fish nurseries' perhaps?) to get barbel producing fry which SURVIVE and GROW
- What WE as anglers can do to help
- Licenced bar and buffet

ALL ARE WELCOME to this event hosted by **UOFCA (Upper Ouse Fisheries Consultative Association)** & Environment Agency fisheries staff

We'll be pleased to see you there!

DATE: Wed March 29 Time: 19.30 for 20.00 Place: MK Irish Club - Manor Fields (next to canal @ Fenny Stratford) Bletchley - Milton Keynes - MK2 2HX
